

# WorkAlly

Lifting corporate darkness

An aerial photograph of a vast, rolling green landscape. In the center, a massive, dense flock of sheep is gathered, forming a large, irregular shape. The sheep are packed closely together, creating a textured, brownish-grey mass against the vibrant green grass. In the background, a small white vehicle is visible on a dirt road that runs through the field. The overall scene conveys a sense of scale and movement.

You underestimated the move to the cloud.

You only migrate once to the cloud.

There's no turning back now.

You have a small budget and short project timeline.

This will not be over in a year ...

it is never-ending.

You are paying twice as much for the same thing.

They promised collaboration and innovation ...

but you still use just email and files.

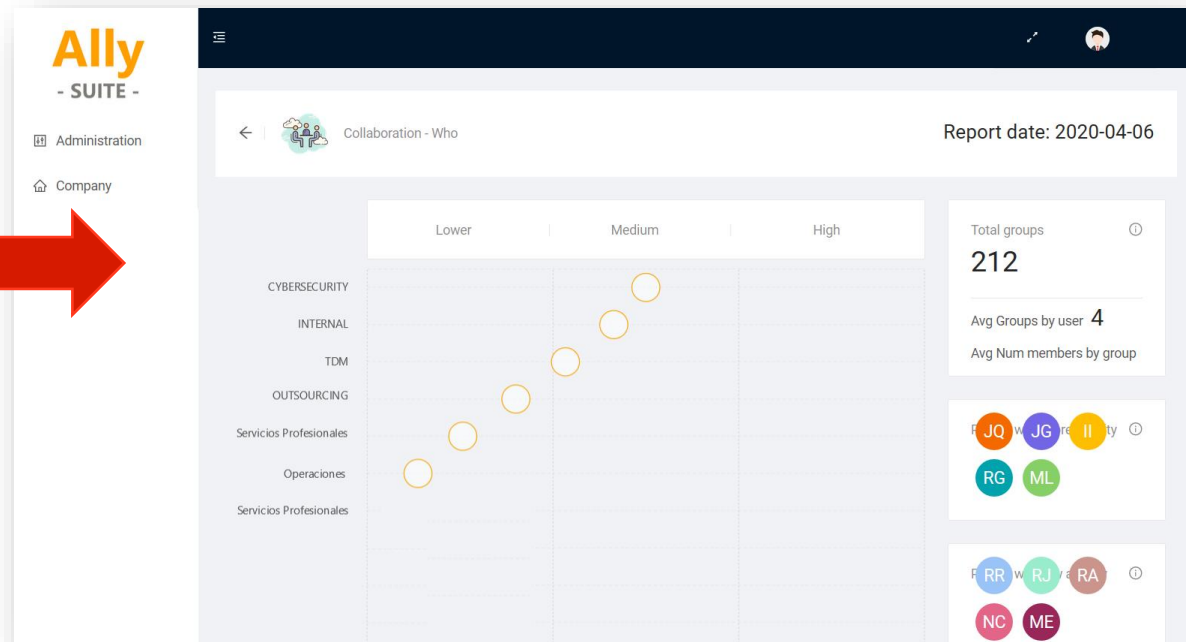

WorkAlly gives you a fighting chance.

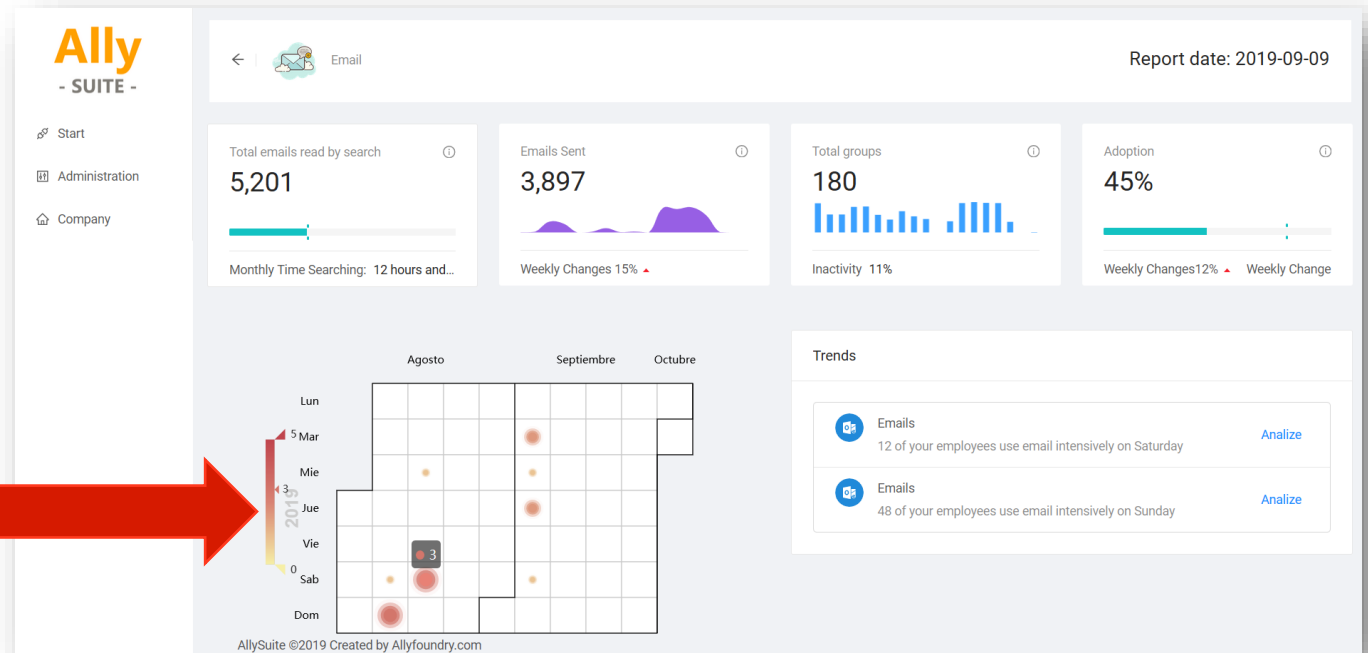

# Focus your energy

## Dive into departments

WorkAlly directs your training efforts by showing the leading and trailing departments in Office 365 use.

# Focus your energy

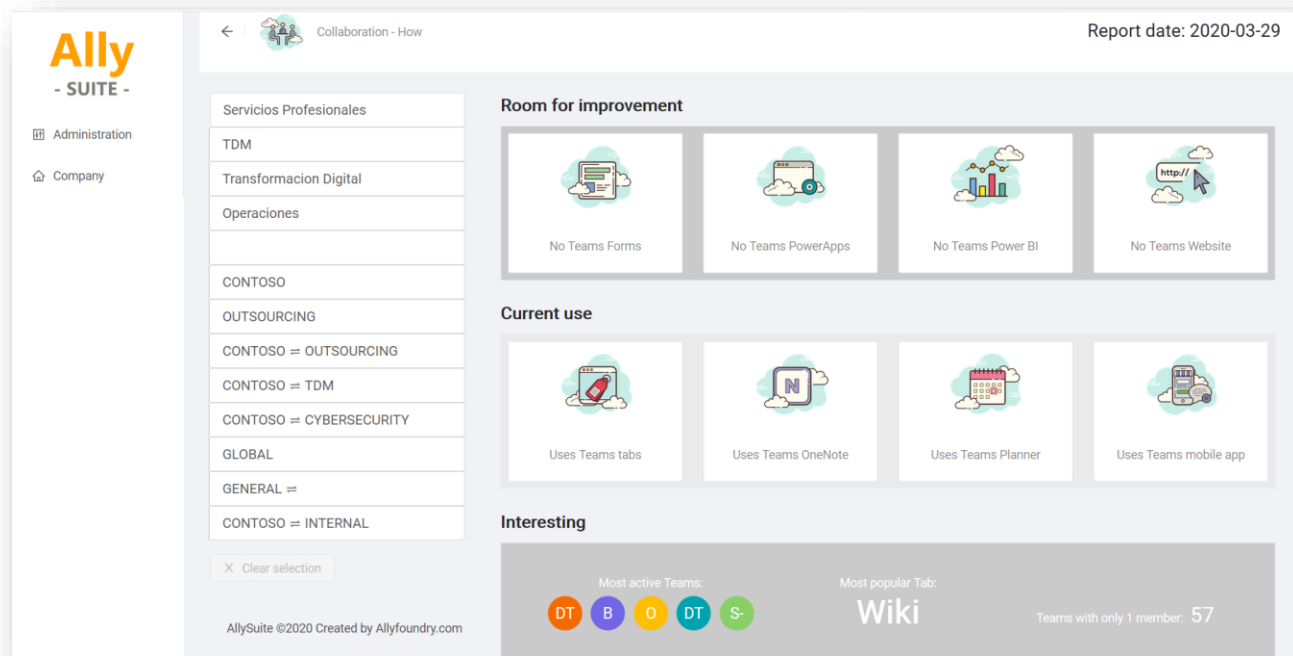

## Find opportunities

WorkAlly stops guesswork and highlights deviations from normal patterns.

# Focus your energy

## Discover your user

WorkAlly reveals the true worker profile across Office 365 tools to show areas for improvement.

It's never too late to get the cloud right.

Starting at \$12 per employee per year.

# Team

Marc Martinez

## Customer side

Marc continues to grow a network of enterprise customers and internal Microsoft connections from Barcelona. His blend of technical vision and business sense forge relationships and create opportunities at every turn.

Marcos Lora

## Technology side

Marcos designs and crafts enterprise-scale Machine Learning and Big Data platforms. He adopts and teaches state-of-the-art technologies to the local developer community, inspiring other devs to join his quest.

Lars Lynch

## Product side

Lars guides corporate customers through sweeping collaborative changes, focusing on the intersection between technology, corporate psychology and data.
